### PROFILE

Software engineer, ESPRIT graduate (TWIN specialisation), focused on delivery. I build and maintain frontend and backend parts of web applications: React interfaces, REST APIs in Node.js and Python, and SQL/NoSQL data stores. Most recent work at Talan: NextHire, **16 microservices** (React, Node.js, Python, FastAPI, MongoDB, Docker), shipped with Git, code reviews and Agile rituals.

### PROFESSIONAL EXPERIENCE

**Software Engineer, Final-Year Project** February 2026 to August 2026

Talan, Tunis, Tunisia

- Delivered an applicant tracking system (NextHire) of **16 microservices**: 2 React SPAs, 1 Node.js/Express gateway and 13 Python FastAPI/Flask services, on shared MongoDB with Dockerised service boundaries.
- Built REST APIs and frontend flows for interviews, then wired them to an LLM voice agent and a YOLO integrity module (face verification, prohibited-object detection) on live WebRTC sessions.
- Implemented a LangGraph pipeline fusing transcription, behavioural and visual signals into scored hiring reports; automated CV parsing (spaCy, PaddleOCR) with anti-hallucination checks.

**Full-Stack Developer Intern** June 2025 to August 2025

SmartConseil / Dafe Management, Tunis, Tunisia

- Delivered a modular Laravel back office (regions, packs, modules) by rebuilding CRUD workflows in Blade, HTML, CSS and JavaScript on PostgreSQL and MongoDB.
- Centralised fragmented crawler tooling (HTML and API drivers) into one codebase; shipped in Agile with Git, code reviews, unit tests, SonarQube and GitLab CI/CD.

**Web Developer Intern** June 2024 to August 2024

Big Deal (Club Privileges), Tunis, Tunisia

- Shipped a digital gift-code module (generation, assignment, tracking) on Laravel and Filament, enabling end-to-end promotional campaigns.

**Web Developer Intern** February 2023 to May 2023

HOTIX, Tunis, Tunisia

- Launched the Consommi Tounsi #619 e-commerce site: storefront features in C# / .NET, Scrum delivery, full test pass and production deployment.

### ACADEMIC PROJECTS

**TalentMatch, a secure auction platform (AI and blockchain)** 2025

- Python, FastAPI, React, Qwen2.5-VL, Gemini 2.5, Solidity: REST APIs and a React frontend for authenticity checks, price estimation through web scraping, and smart contracts on Ethereum and Sepolia.

**Clinical Decision Support (computer vision and RAG)** 2025

- Fine-tuned vision-language models (BLIP, CLIP+LLaMA LoRA) and a RAG stack (Meditron-7B, Qdrant, PubMedBERT) to generate medical reports with citations from radiographs.

**Health Record, a health tracking platform** 2025

- Django REST API with JWT: ResNet50 and ResNet18 medical vision across 14 thoracic pathologies, anomaly detection (Isolation Forest, One-Class SVM) and a T5 chatbot.

### EDUCATION

**Engineering Degree, TWIN specialisation (Web, Internet and Network Technologies)** 2023 to 2026

ESPRIT, Private Higher School of Engineering and Technology, Tunis

**Bachelor's Degree in Business Computing, E-Business** 2020 to 2023

ESEN, Higher School of Digital Economy, Manouba

### TECHNICAL SKILLS

**Frontend:** HTML, CSS, JavaScript, TypeScript, React

**Backend:** Node.js, Express, Python, FastAPI, Flask, Django, Java, C# / .NET, Laravel, PHP

**Data and tools:** MongoDB, PostgreSQL, MySQL, REST APIs, Git, GitLab CI/CD, Docker, SonarQube

**Methods:** Scrum, Agile, unit testing, code review

**AI (project work):** LLM Agents, LangGraph, LangChain, RAG, PyTorch, TensorFlow, YOLO, spaCy

### CERTIFICATIONS

CCNA Switching, Routing and Wireless Essentials, Cisco Networking Academy September 2024

AWS Academy Graduate, Cloud Foundations, AWS Academy (Credly badge) May 2025

Hashgraph Developer Course, Hedera Hashgraph October 2025

SDG, Work Ethics and Gender Equity, Honoris United Universities 2024

### LANGUAGES

Arabic: native. French: fluent. English: advanced, professional working level.
